PROJECTS

- **NR-DIR Startups** [Link to Demo](#)
 - Built a Startup Directory app using **Next.js**, Sanity, and GROQ.
 - Added **GitHub authentication** and real-time pitch updates.
 - Enabled startup filtering, search, and detailed pitch pages.
 - Tracked pitch views for popularity and user engagement.
- **LoanGenie** [Link to Repo](#)
 - Developed a Loan Approval Prediction System using **Flask** and **React**.
 - Utilized a **Random Forest Classifier** to evaluate loan eligibility.
 - Directed approved applicants to tailored loan options for personalization.
 - Integrated AI for NBFC-compatible recommendations to enhance user experience.
- **Health-Tracking-App** [Link to Demo](#)
 - Built a full-stack Health Tracking Application using the **MERN** stack.
 - Enabled users to log, view, update, and delete daily health metrics.
 - Tracked metrics include body temperature, blood pressure, and heart rate.
 - Added search and filter functionalities for easy data accessibility.

WORK EXPERIENCES

➤Web Development Intern

Vereigen Media [Jan'25 – Present]

- Developed a multilingual Excel-to-HTML conversion tool and built a role-based Task Manager app with admin/user dashboards using Python, Flask, and web technologies.
- Created and managed WordPress posts, landing pages, and email templates for clients like ServiceNow, Microsoft, and Red Hat, ensuring alignment with tech properties.
- Optimized creatives and conducted QA/QC for multi-language campaigns on platforms like ITTech, CXO, and ClientPaper, while organizing web development quizzes and learning roadmaps for the community.

ACHIEVEMENTS

- SPARK THE SUMMER HACKATHON, GUJARAT** July 2024
 - Shortlisted in Top 10 for developing DeepFake Detection System for Social media Platform.
- OPEN-SOURCE CONTRIBUTOR** Nov 2024
 - Contributor in Social Winter of Code 2025.
